In a month, about 100,000 new articles are published, which is more than 100 in an hour

**Università
di Genova**

Knowledge circulation in scientific field

Different ways

- Practice/Laboratory
- Scientific literature

→ Dizzling speed of publications rhythms in scientific literature

In a month, about 100,000 new articles are published, which is more than 100 in an hour!

Causes:

- the spread of "*Publish or perish*"
- dematerialization of publications

→ Online only: Since 1990 all scientific literature has been online

→ E-journals as the favourite source

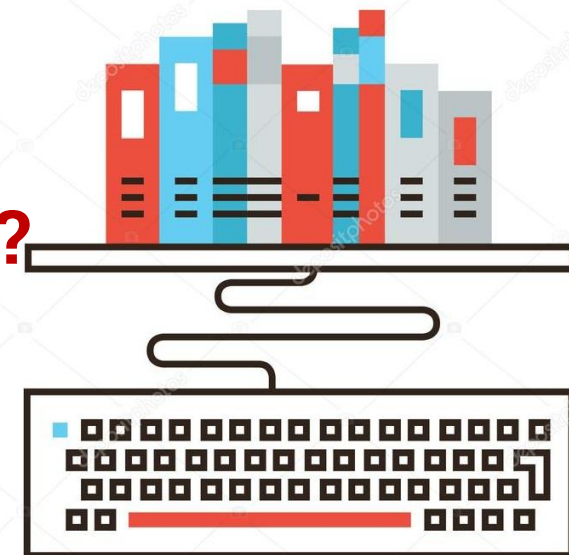

→ Different type of studies: original researches, literature review , reports, discussions...

Università
di Genova

What does the library do and how can it support you?

- Support in the use of discovery tool Unopertutto

- Support in bibliographical research
- On request : individual meeting on specific bibliographic resource or sources analysis

bibliomedfarm@unige.it

Our documents available for you:

Research Monograph

Ebooks (Wiley, Springer...)

Electronic Journals of the most important publishers: Elsevier, Springer, Wiley, Lippincott, Cambridge and Oxford University Press, Bentham, Taylor & Francis, RSC...

Databases

Unopertutto

<https://unopertutto.unige.net>

discovery tool that responds to the answers:

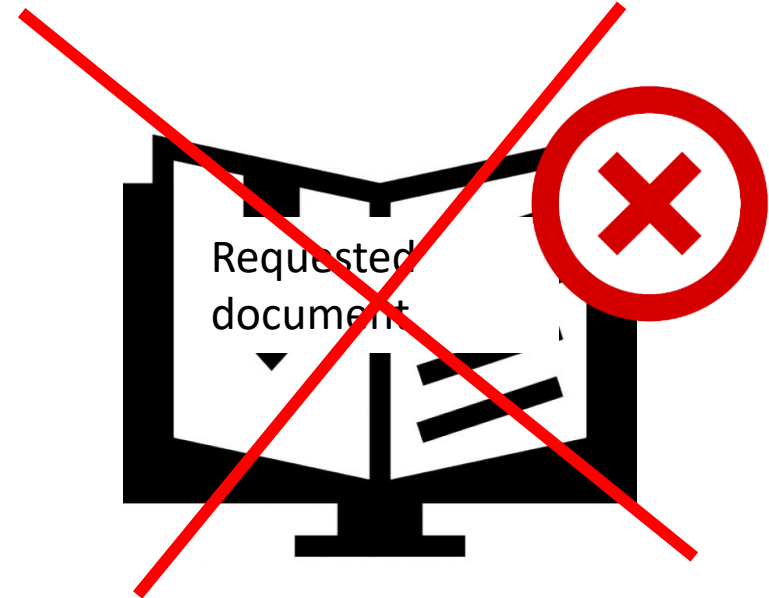

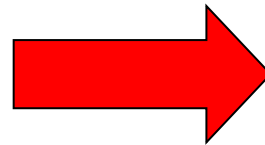

- does the book I need belong to the library?
- what documents are there on a topic that interests me?
- recently published?
- I need to read a journal but is it subscription-based?
- can I access a journal article found on pubmed?

PROXY service

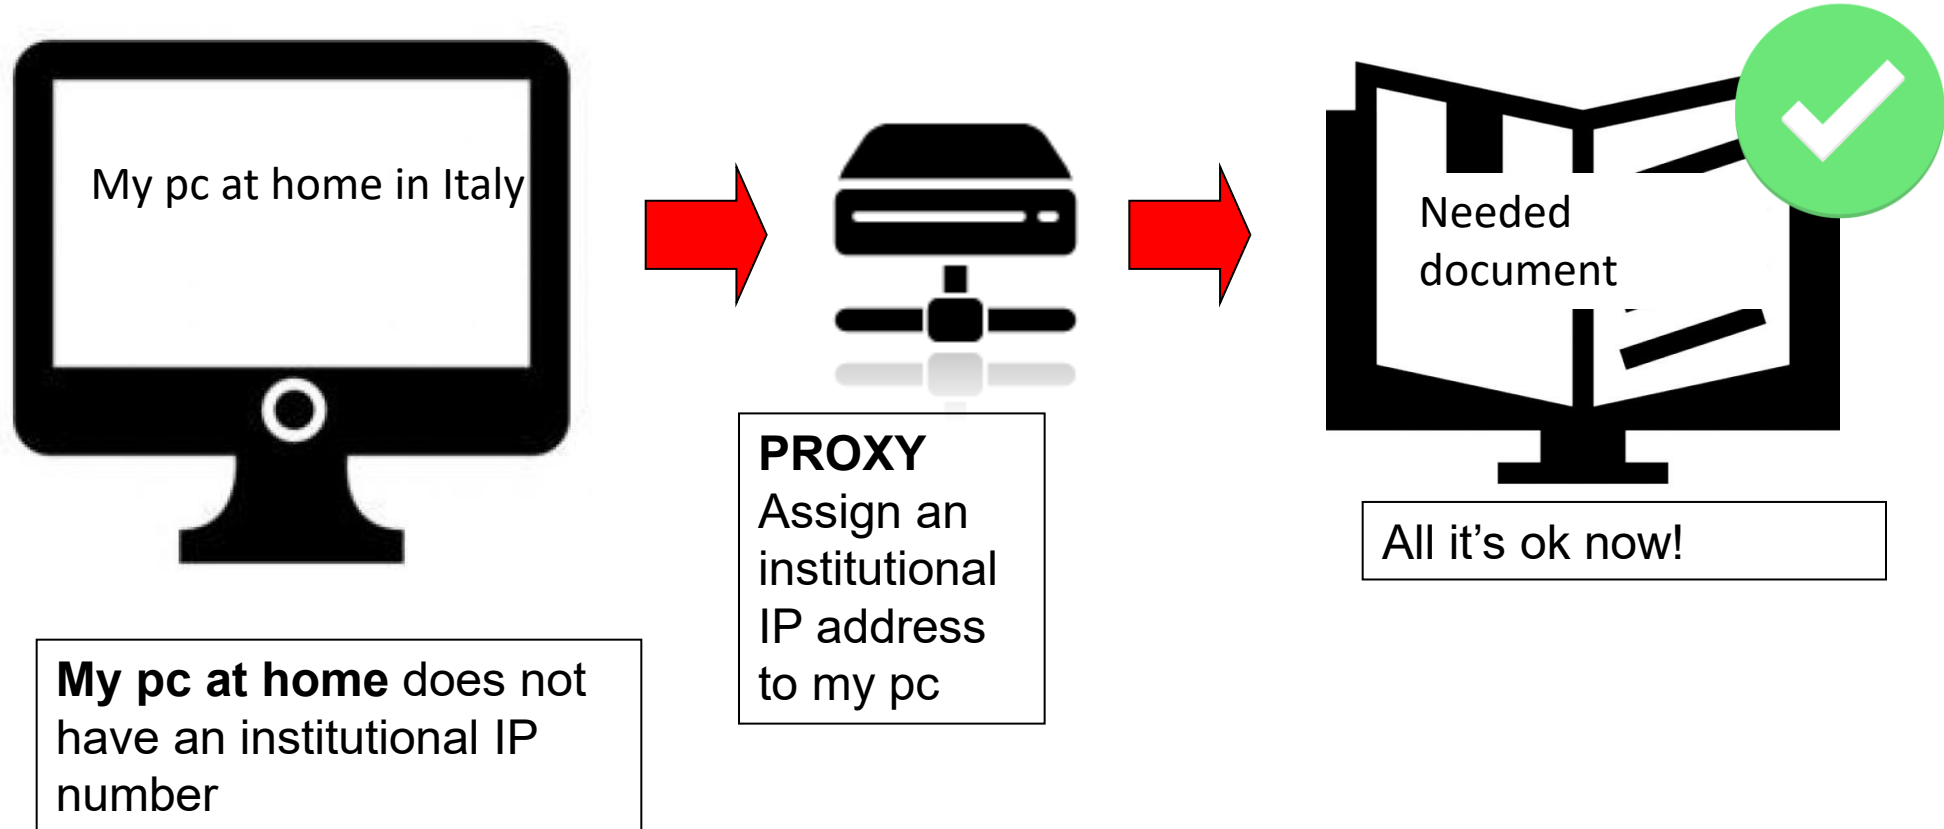

My home pc does not
have an institutional IP
number

The electronic resource
refuses access because
doesn't recognise me as
an allowed user

PROXY service

Activating proxy instructions

<https://ict.unige.it/proxy>

The Proxy kicks in when needed.

You have to fill in your **Unige-pass credentials**

Accedi

Il proxy <http://proxy.unige.it:8080> richiede un nome utente e una password.

Federated authentication (Shibboleth)

It's possible to access most of the electronic resources subscribed from outside the UniGe network and also from abroad through federated authentication with UniGePASS credentials:

- click on login or sign-in option
- select the option Institutional login or Login via your Institution or Find your institution
- in the search box enter "Genova" or "Genoa"
- select the institution University of Genova or University of Genoa
- authenticate with your UniGePASS credentials
