## Lexicomp®: Academic Drug Reference Solution

Lexicomp provides drug information resources and tools to help your students in class, on rotations and clinicals, and throughout their careers:

- Clear, concise point-of-care drug information, including dosing, administration, warnings and precautions, as well as clinical content, such as clinical practice guidelines, IV compatibility from Trissel's™ 2 Clinical Pharmaceuticals Database, and other tools.
- AHFS – An extensive research solution, recognized as a CMS compendium to assist in reimbursement
- Online access plus a mobile app
- Formulary Decision Support Module
- Search in your own language - enhance efficiency and ease of use for non-native English speakers with ability to search in up to 17 languages

**Academic subscriptions include access to Lexicomp and Facts & Comparisons® eAnswers drug reference solutions for hospital and retail pharmacy settings to help prepare students for a variety of professional paths.**
